

# SALT LAKE MOTHERS OF TWINS (SLMOT) SUPER SALE GUIDELINES

## **ADVERTISING**

The club will be responsible for advertising in local papers and distributing directional signs.

## **WHO MAY SELL**

The sale is open to the public. SLMOT provides all the advertising, reserves the location, and handles all financial transactions and in return receives 10% of the proceeds from each item sold at the Super Sales. Non-members interested in selling at one of our Super Sales must pre-register and pay a \$5.00 fee. SLMOT will issue checks to each seller representing 90% of the proceeds from each item sold by the seller within 30 days of the sale. Each seller is asked to bring a self-addressed, stamped envelope on the day of the sale.

## **WHAT MAY BE SOLD**

Items that pertain to babies, children and pregnancy are the primary items to be sold. Examples: clothes, toys, baby accessories, baby equipment and maternity items. If you have additional non-baby/child items to sell, you may also do so. Items that are stained, broken, worn or in extremely poor condition should not be sold. Please be sure that all toys and equipment are in working condition and that games and puzzles contain all pieces. All items are sold at your own risk. SLMOT will make every effort to provide a safe location and facility, however, SLMOT does not accept responsibility for loss, theft or damage.

## **SELLER REGISTRATION**

All sellers must contact Kari Roberts ([kari.roberts@slcgov.com](mailto:kari.roberts@slcgov.com)) in advance to register to sell.

## **SCHEDULE**

6:30-8:00am Set up

8:00-8:30am Pre-Sale for SLMOT Members Only

8:30-12:00pm Public Sale

Checks will be accepted by MEMBERS ONLY payable to SLMOT.

## **PREPARING ITEMS FOR SALE**

Try to make your items as appealing as possible. Spending a little extra time getting your items ready will make a HUGE difference on your check at the end of the sale. Starch, a little bleach, an iron, or a needle and thread work wonders! Clean, neat, well packaged items will sell better. Button all buttons, snap all snaps, tie all bows, zip all zippers. Remove all dirt and crayon marks from toys and furniture. Make sure all parts are included, and place any small parts in zip-close bags then securely attach the bag to the main part. Replace batteries and remove all used tubing from breast pumps. Pricing and packaging have a lot to do with how well your items will sell.

## **ORGANIZING**

These are only recommendations but will make it easier to sell your items.

**Onesies:** Group 2-3 to a set and place in a Ziploc bag.

**Shoes:** Place in Ziploc bags, tie together or place in shoeboxes if you still have them.

**Socks:** Group 2-3 like pairs of socks in a Ziploc bag.

**Coordinating Outfits:** Hang outfits separately and attach hangers with a rubber band or twist tie.

Place one sale tag with one price and on the "Item" line of the tag indicate number of pieces in the coordinated outfit (i.e. 4 pcs, if you have coordinating tops and bottoms).

# **SALT LAKE MOTHERS OF TWINS (SLMOT) SUPER SALE GUIDELINES**

## **CAR SEATS**

Car seats must be no more than 5 years old, never been in an accident, and have not been recalled (or they must have been updated with recall parts). The seller is responsible for ensuring their car seat(s) have not been recalled by checking either the product manufacturer's website, the Consumer Product Safety Commission ([www.cpsc.gov](http://www.cpsc.gov)), [www.carseatlady.com](http://www.carseatlady.com), or <http://babyproducts.about.com/> to verify there have been no recalls.

## **TAGS**

All items should be tagged with the provided tags. If other formats are used, it makes it difficult to do the sorting and accounting in an efficient manner. The tags will have the Seller's full name (first and last), the price, description of item, and a listing of flaws (if any). You may use straight pins or safety pins to attach tags to your clothing. Toys should have the tag attached with tape or pins. If an item is small and/or is in many pieces, then the item should be placed in a bag with a tag. All other items should have the tag attached by either tape or safety pins. For shoes, twist ties work well for attaching the tag, with a hole punched in the corner. A gallon bag will hold small shoes, also.

Please make every effort to make sure your tags are legible. If the price appears to be altered, the item will not be sold unless the change is legible AND has the seller's initials.

Before attaching your tags, please double check that your full name is clearly printed on the front of the tag. It is a good idea to include the brand name on a tag, if it is a popular one, such as Gymboree, GAP, Little Tykes, etc. If your item is brand new, indicate that on the tag (e.g., "New!" or "Like New").
